CODA®
LOGISTICS AND DISTRIBUTION

November 19, 2026

Los Angeles… We're Still on Our Way!

Since first sharing the news of our expansion into Los Angeles, the response from customers, partners and friends throughout the industry has been incredible. The enthusiasm, encouragement and continued interest have been truly appreciated as we work toward bringing CODA® to Southern California.

While we await final U.S. Customs approval of our CFS application, CODA® is currently open and ready to support customers throughout the Los Angeles/Long Beach market with FCL transloads, export cargo and a broad range of domestic cargo solutions. Whether you have an immediate need or are exploring opportunities for future business, our team is ready to help.

This expansion marks an exciting next chapter for CODA® Logistics and Distribution and an important step in extending our proven CFS model to the West Coast. We look forward to bringing the same responsive service and operational experience that have defined CODA to the LA/LB market, while creating new opportunities to support freight forwarders, NVOCCs, importers, exporters and industry partners.

Our approach is simple, begin delivering value to the local market today while thoughtfully building toward the full capabilities of our new Los Angeles facility. As we work through the many details involved in establishing a new operation, our commitment remains unchanged; get it right, deliver on our promises and create a reliable, lasting extension of the CODA® network.

To our customers, partners and friends who have encouraged and supported us along the way, thank you. We look forward to building new relationships, strengthening existing ones and growing together in Los Angeles.

Los Angeles… we're getting closer. And we're already ready to do business!

Marie Costa
President
CODA® Logistics and Distribution
